

Sara Daniel, MPH, Project Manager. Sara Daniel, MPH, is a Project Manager for the Abortion Facility Standards Initiative. Prior to joining ANSIRH, she worked at UCSF's Bixby Center for Global Reproductive Health and Philip R. Lee Institute for Health Policy Studies on projects evaluating access to contraceptive and family planning care as well as practice and policy implications of confidentiality protections for adolescents and young adults seeking sensitive services. She has extensive experience in study design, project management and evaluation. She brings passion and years of experience in working with vulnerable populations, including survivors of torture and sexual violence. She received her BA in Biological Sciences from the

University of Chicago and MPH from the University of Illinois at Chicago School of Public Health.
